

PEX Crimp Tools

ASTM F1807 Close Quarters PEX Crimp Tools

NEW

Close Quarters Manual PEX Crimp Tools are the newest addition to the RIDGID® Crimp Tool line. With handle openings up to 71% smaller than our standard PEX Crimp Tools, contractors can now maneuver into tight spaces with ease. And, you'll always be prepared with a built-in Go/No-Go Gauge – a RIDGID exclusive.

Specifications

- For use with ASTM F1807 copper crimp ring PEX tubing connections.
- Integrated Go/No-Go Gauge folds into handle for easy storage.
- Durable, Glass-Filled Polycarbonate E³™ Handles (Expert Engineered Ergonomics) provide increased comfort.
- Available in 1/2" and 3/4" sizes.
- Easily adjustable cam for tool calibration.

ASTM F1807 Standard PEX Crimp Tools

RIDGID's Standard PEX Crimp Tools are available 1/2" – 1" and are ideal for making PEX tubing connections in potable water and radiant heating applications. Over 20% lighter than other standard-style crimp tools, these tools feature E³ ergonomic handles and come standard with a Go/No-Go Gauge.

Specifications

- Requires less hand force to operate reducing operator fatigue.
- Easily adjustable lock screw for tool calibration.
- Available in: 1/2", 3/4", 1" and 1/2" & 3/4" combo tool.

Other PEX Crimp Tools and Accessories by RIDGID

Compact Battery-Powered Press Tools

The RP 200-B and RP 210-B give contractors another option for a fast and reliable way to join PEX. Available in either an inline or pistol grip style, these battery-powered hydraulic press tools allow access to tighter spaces, enabling press connections in difficult to reach areas. Featuring a 270° swiveling barrel and a powerful 18V Lithium-Ion battery, the tool is engineered to maximize the presses per charge for more uptime.
