

New!

920 Roll Groover

The new RIDGID 920 Roll Groover takes grooving to a whole new level. With a capacity range of 2" – 24" diameter pipe, the 920 has the largest capacity of any RIDGID roll groover. The 920 mounts to the RIDGID 300 Power Drive for use in the field or shop. Also available is the new RJ624 Large Diameter Pipe Support for grooving pipe up to 24" in diameter, a perfect complement to the 920 Roll Groover.

920 Benefits:

1. Largest Grooving Capacity In Its Class – (Refer to chart below.)
2. Transportation Mode – Detachable Wheels: One man can easily move the 920 around a job site
3. Patented Depth Setting Gage – Easy and accurate groove depth setting
4. Built-in Pressure Gage – Helps operator monitor hydraulic pressure to control flare and optimize groove time
5. Front Roll Set Change-out – User can switch groove roll sets quickly and easily
6. Easy Adjust Support Legs – Helpful when leveling the groover on uneven ground

Standard Equipment:

- 920 Roll Groover with support legs
- 2" – 6" Sch. 10/40 Groove Roll Set with box
- 8" – 12" Sch. 10/40 Groove Roll Set
- 14" – 16" Standard Wall (0.375) Groove Roll Set with box
- #32 Transporter
- 920 Training Video and User Manual

Capacity:

Material	Pipe Size/Schedule													
	2	2½	3	3½	4	4½	5	6	8	10	12	14	16	18 – 24
