

K-40 Sink Machine

**Now With
Dual Feed!**

K-40G AF in Vertical Position

K-40B (Battery Powered)

The K-40 Dual Feed Sink Machine provides the professional with a powerful yet compact machine for cleaning small secondary drain lines from $\frac{3}{4}$ " to $2\frac{1}{2}$ " (19mm – 64mm). When used with the dual feed your hands literally never need to touch the cable, and THERE IS NO MESS.

- **Dual Feed** – Advanced two way feed keeps hands off cable, advances and retrieves with push of a lever.
- **Reduces Job Time by 25%** – Guide Hose-AUTOFEED completely covers spinning cable. Protects porcelain surfaces and greatly reduces job site clean up.
- **Dual Position** – The K-40 sits flat on the floor, countertop, or tips onto its back for easy access to elevated drains.
- **Quiet and Powerful** – 1/8 hp induction motor quietly delivers enough torque to clear even the toughest blockages.
- **Battery Powered Option** – Convenient K-40B (Battery) eliminates extension cords and improves portability. Weighs 8 lbs. less than standard K-40.
- **Other Features**
 - Premium quality, compression wound inner core cable resists kinking and combines strength and flexibility.
 - Two-piece "twist lock" drum housing allows easy access to the inner drum and cable and will not dent or corrode.
