

Tip-Up Wing Hydraulic Bender

RIDGID® Hydraulic Benders are versatile and portable benders, ideal for on-site bending as well as machine construction, boiler making and industrial applications in general. Available in a manual configuration designed for precision cold bending of standard gas pipe and black pipe up to 3".

- Durable piston seals prevent premature leaks and maximize uptime.
- Longer cylinder stroke per pump and optimized hand force minimizes operator fatigue.
- Bending angle indicators reduce starts, stops and pipe removal to take measurements.
- Single circuit hydraulic system with return spring for better control of the ram.
